collection

America's Favorite Garage Doors®

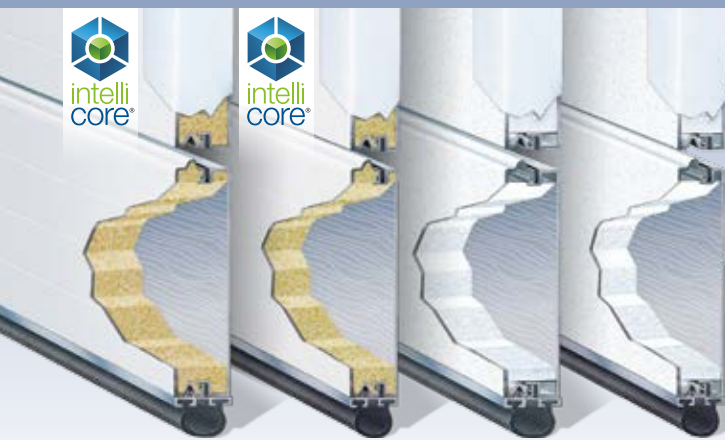

Model 9202 Flush Panel in Ultra-Grain® Cypress Medium Finish

Cypress™ Collection insulated garage doors, featuring Clopay's popular Ultra-Grain® paint finish, make an attractive, practical and energy efficient option for any home's garage. Available with Intellicore® high R-value polyurethane or polystyrene insulation in 2" or 1-3/8" thicknesses, these flush panel models offer exceptional insulating properties, strength, security, and quiet operation. With many decorative window and hardware styles, Cypress Collection garage doors will dramatically improve the curb appeal of your home without breaking your budget.

3-LAYER CONSTRUCTION

- 3-Layer steel construction for maximum durability, energy efficiency and quiet operation.
- 2" or 1-3/8" Intellicore® polyurethane or polystyrene insulation available in R-values ranging from 6.5–18.4.
- Ultra-Grain® painted steel surface with woodgrain texture simulates a real stained door without the need of staining or the ongoing maintenance of wood.
- Tongue-and-groove section joints help seal out wind, rain and snow.
- Replaceable bottom weatherseal in a rust-proof aluminum retainer helps prevent elements from entering garage.
- Patented Safe-T-Bracket® helps prevent serious injury that could occur if the bottom bracket were removed with the garage door closed and under tension.
- Nylon rollers are smooth and quiet.
- Prepainted interior steel backing creates a clean, finished appearance.

intellicore®
insulation technology

Garage doors featuring Intellicore® insulation technology represent the ultimate smart choice for homeowners. Clopay's Intellicore is a proprietary polyurethane foam that is injected into our Cypress™ Collection doors, expanding to fill the entire structure. The result is a door with incredible strength and durability. Its dense insulation also produces a quieter door, while its industry-leading R-values (up to 18.4) provide year-round comfort and improved energy efficiency.
